[Glas Seal]

CASE STUDY

Ashfield Girls High School , Belfast

Procured by the Belfast Education & Library Board, through the Belfast Schools Project, the £16m new school building for Ashfield Girls High School is bright, bold and colourful.

Adding a splash of colour to the main entrance of the building is an expanse of VANCEVA transparent coloured glazing manufactured and supplied by GlasSeal. The reception area is bathed in multi-hued natural light cast through the coloured insulating glass units.

Architect	**Todd Architects**
Main Contractor	**H & J Martin**
Glazing	**Aluminium Curtain-Walling**
Glass	**Vanceva colour laminated glass units**
