

Declaration of Non-Toxicity

Re: Construction Product Regulations - Dangerous substances

GlasSeal (NI) Ltd is a manufacturer of Kitemark registered insulating glass units (IGU). The component materials used in the manufacture of IGU are primarily:

- Soda-lime silicate glass
- Poly-vinyl butyral (PVB) interlayer
- Aluminium, steel and composite spacer bar
- Aluminium decorative bar
- Desiccant
- Polysulphide and silicone sealant
- Argon and Krypton inert gas

In accordance with the requirements of clause 4.6 of BS EN 14351-1 2006, GlasSeal confirms that all fully-cured and installed IGU manufactured using the above component materials are regarded as non-toxic, are not liable to migration or emission during normal intended use and are not considered harmful to health or the environment.
